Messages:
- VAERS data in CDC WONDER are updated every Friday. Hence, results for the same query can change from week to week.
- These results are for 19,769 total events.
- Rows with zero Events Reported are hidden. Use Quick Options above to show zero rows.

Symptoms	Events Reported	Percent (of 19,769)

Note: Depending a report for COVID does not mean the healthcare personnel or the vaccine recommendations are related to the COVID-19 pandemic

Notices:

Cautionary: CDER's analytic reports of adverse events are examined from source information and data submitted to the agency by manufacturers and consumers and others. Because the agency receives voluntary reports from a population of unknown size, it is usually not possible to determine if a serious event or combination of events should be attributed to a drug. The reports may be incomplete, inaccurate, coincidental, and unverified information. Therefore, it is usually not possible to determine from these reports alone if a drug caused an observed event, the frequency of risk of a problem associated with a drug, or to estimate the incidence of a problem among those taking a drug. Reports with similar information may be grouped to identify the most recent date for which data are available.

- Reports may be incomplete, inaccurate, coincidental and unverified information.
- It usually is not possible to determine from these reports alone if a drug caused an observed event, the frequency or risk of a problem associated with a drug, or to estimate the incidence of a problem among those taking a drug.
- Reports with similar information may be grouped to identify the most recent date for which data are available.
- Do not use these data to calculate the likelihood for a vaccine and should be interpreted in the context of other scientific information.

Data contained within AERS reports are processed as of 01/12/2021. The AERS data is RESTRICTED and updated weekly, and NO LONGER contains quarterly updates including revisions and deletions. Please see the AERS publication page for more information.

Help: See The Quarterly Publication Search Warning & Update | AERS Documentation for more information.
